### **How We Get Paid**

We earn our income from either a fee or commissions earned from providers or a combination of both. Fees and Expenses Should you proceed with our financial advice and we arrange insurance for you, then a fee may be charged.

This fee will be based on the amount of work and time required to provide and implement our advice and will be shown on your invoice.

If we arrange insurance for you and you cancel it part way through the insurance period, we may keep some or all of that fee.

We may charge a fee for making adjustments to your insurance during the insurance period. This fee will show on your invoice.

Folio retain a percentage of this fee for a range of professional services they provide to Gerrards.

Sometimes other fees are charged that do not relate to the financial advice such as credit card fees. If so, we will advise you of this in our recommendation.

### **Conflicts of Interest and Incentives**

When we arrange insurance for you, the provider(s) may pay us a commission. The amount of the commission varies between providers and products and is based on a percentage of the Company Premium and Natural Disaster premium (if applicable).

If we arrange insurance for you and you cancel it part way through the insurance period, we may keep some or all of the commission from any refund due to you.

Folio retain a percentage of this commission for a range of professional services they provide to Gerrards.

If a person or entity has referred you to us, we may pay them a percentage of the commission and/or fees we receive for their referral.

A financial adviser may have a conflict of interest in circumstances where financial advice has been provided to two clients who later have a dispute. If this occurs the financial adviser will disclose the conflict of interest to you and refer one client to another financial adviser for advice and assistance.

To ensure that our Financial Advisers prioritise your interests above their own, we follow an advice process that ensures our recommendations are made on the basis of the information you have provided and your unique circumstances.

We maintain a register of conflicts of interest, of gifts and any other incentives we may receive. If we believe there is a conflict of interest – real or perceived – we will discuss this with you. Folio and Gerrards also undertake annual internal reviews to ensure compliance with these statements.

### **Premium Funding**

Premium funding enables you to pay the insurance premium by instalments, rather than make a lump sum payment.

Premium funding companies charge interest and they take a power of attorney over your insurance policy. This means they have the ability to cancel your insurance policy if you fail to pay an instalment.

If you enter into a premium funding arrangement, the premium funding company will pay Gerrards a commission as a percentage of the amount they fund.

We will disclose the amount of this when we know the scope and nature of the advice you need and whether you want to pay by instalments.

### **Complaints Handling & Dispute Resolution**

Please refer to our Internal Complaints Process that can be found [here](#).

Duties Information Gerrards, Folio and anyone who gives financial advice on their behalf have duties under the Financial Markets Conduct Act 2013 relating to the way that we give advice.

We are required to:

- give priority to your interests by taking all reasonable steps to make sure our advice isn't materially influenced by our own interests;

- meet standards of ethical behaviour, conduct and client care set by the Code of Professional Conduct for Financial Advice Services.
